2. Warnings

- When in use do not exceed the maximum load of 50 kgs.
- Do not sit, stand on the product.
- Always keep the feet well rested on the ground.
- Always keep the product away from heat source such as outdoor grill, flame, cigarette, ... Do not use sharp units or pressure washer on products surface.

3. Maintenance & Care Instructions

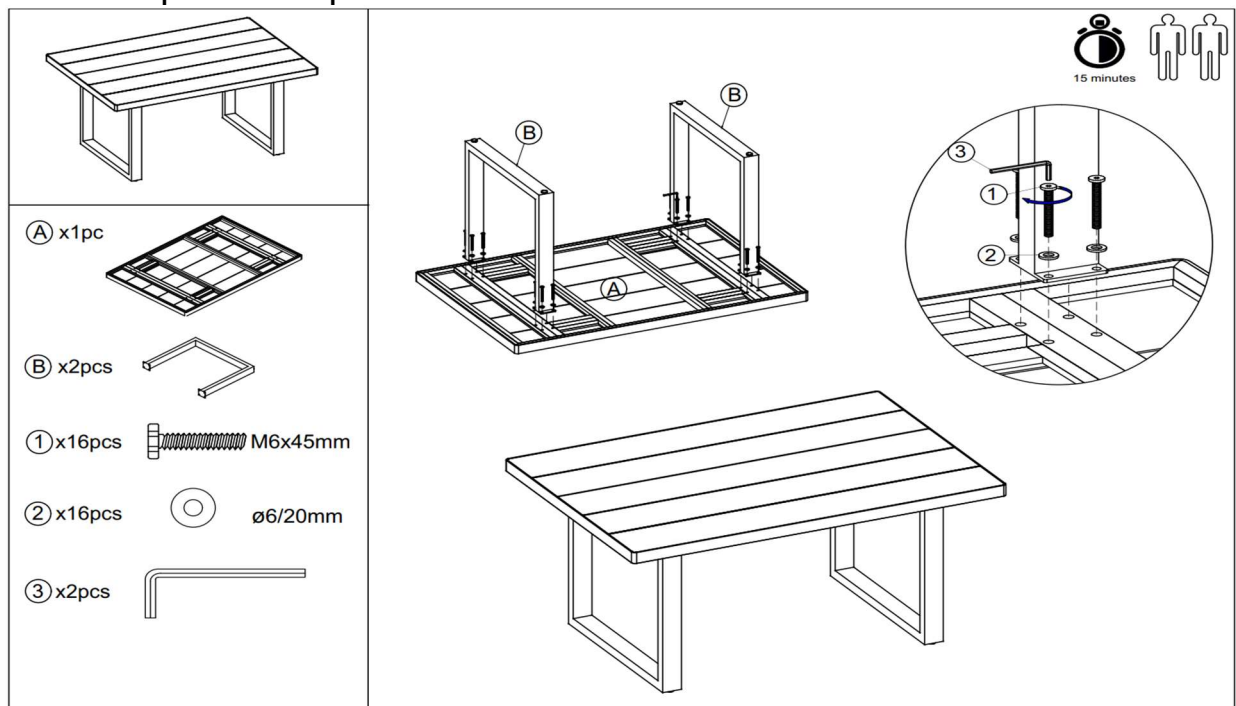

- **Maintenance:**
 - ✓ Treat the product at least twice / season with wood oil intended for teak or hardwood furniture
 - ✓ Depending on the weather, it may be necessary to repeat the treatment more times/ season.
 - ✓ Use a fair amount of oil and let penetrate the wood. Wipe of any excess oil.
 - ✓ If teak is outside without being oiled, its surface will get a grey patina over time. However, the origin color can be restored by cleaning, sanding and oiling the surface.
 - ✓ The metallic parts of the feet after a period of use can be dirty. Please use a dry towel to clean them.
- **Cleaning:** Never use abrasive material for cleaning
- **Storing:** If possible, store your outdoor furniture during the winter season in a dry and cool place indoors. Choose a cool, dry and airy place. An unheated garage, for example, is a good place for storing summer furniture. When stored outside, tilt the furniture and preferably use waterproof covers. Make sure air can circulate to avoid moisture. Never cover moist or wet furniture, and avoid direct contact with soil.
