| <b>(D)</b>                                                                                                                                            | Wandbefestigung dient als Kippschutz - unbedingt anbringen! Bei einigen Wandtypen kann ein Spezialdübel erforderlich sein!                                                     |
| <b>(GB)</b>                                                                                                                                           | The wall fastening serves to prevent tipping - be absolutely sure to mount it! For certain wall types, a special wall plug may be necessary!                                   |
| <b>(FR)</b>                                                                                                                                           | La fixation murale sert de protection contre le basculement – à installer impérativement ! Pour certains types de murs il faut des chevilles spéciales !                       |
| <b>(TR)</b>                                                                                                                                           | Duvardaki sabitleme, devrilmeye karşı bir emniyet tedbiridir ve mutlaka monte edilmelidir! Bazı duvar tiplerinde bunun için özel bir dübel gerekli olabilir!                   |
| <b>(IT)</b>                                                                                                                                           | Il fissaggio alla parete serve da protezione anti-ribaltamento – attaccarla assolutamente! Per alcune strutture di parete può essere necessario un tassello speciale!          |
| <b>(NL)</b>                                                                                                                                           | Bevestiging aan de muur dient als kantelbescherming – zeker en vast bevestigen! Bij enkele muurtypen is een speciale plug misschien vereist!                                   |
| <b>(RU)</b>                                                                                                                                           | Обязательно установите крепление на стене во избежание опрокидывания! Для некоторых типов стен может потребоваться специальный дюбель!                                         |
| <b>(CZ)</b>                                                                                                                                           | Montáž na stěnu slouží jako ochrana proti převrnutí – bezpodmínečně umístěte! U některých typů stěn může být zapotřebí speciální hmoždinka!                                    |
| <b>(HU)</b>                                                                                                                                           | A termék a falhoz kel rögzítési, különben az felborulhat! Egyes fal típusoknál speciális tiplit kell használni!                                                                |
| <b>(RO)</b>                                                                                                                                           | Sistemul de fixare la perete servește ca protecție la răsturnare - de montat obligatoriu! Pentru unele tipuri de perți este posibil să fie necesar un diblu special!           |
| <b>(PL)</b>                                                                                                                                           | Mocowanie do ściany jest jednocześnie zabezpieczeniem przed przewróceniem – koniecznie zamontować! Do niektórych rodzajów ścian konieczne zastosować specjalne kołki mocujące. |
| <b>(SWE)</b>                                                                                                                                          | Väggmontering fungerar som anti-lutningsskydd - det är viktigt att fästa det! En speciell plugg kan behövas för vissa väggtyper!                                               |
| <b>(FIN)</b>                                                                                                                                          | Seinäkiinnitys toimii kaatumista estävänä suojana - se on ehdottomasti kiinnitettävä! Joihinkin seinätyyppeihin voidaan tarvita erityistappi!                                  |
| <b>(NOR)</b>                                                                                                                                          | Veggmontering fungerer som anti-vippebeskyttelse - det er viktig å feste det! En spesiell dyvel kan være nødvendig for noen veggtyper!                                         |
| <b>(DAN)</b>                                                                                                                                          | Vægmontering fungerer som anti-vip beskyttelse - det er vigtigt at fastgøre det! En speciel dyvel kan være påkrævet til nogle vægtyper!                                        |
| <b>(SK)</b>                                                                                                                                           | Upevnenie na stenu slúži ako ochrana proti prevráteniu – bezpodmienečne použite! Pre niektoré druhy stien môže byť potrebná špeciálna hmoždinka!                               |
| <b>(ES)</b>                                                                                                                                           | El montaje en la pared sirve como protección antivuelco: ¡es imprescindible fijarlo! ¡Es posible que se requiera una espiga especial para algunos tipos de paredes!            |
